ABOUT THE KANSAS CITY AUTOMOTIVE MUSEUM

The Kansas City Automotive Museum (KCAM) presents our region's automotive heritage in manufacturing, racing, collecting and marketing of automobiles and motorcycles. It is our mission to entertain and educate all generations through the preservation, promotion and display of Kansas City's rich automotive heritage. We accomplish this through our education and preservation programs and community events. KCAM showcases historical content, automotive memorabilia and rotates a collection of approximately 90 vehicles per year. The Museum also houses a drive-in area that is used to rotate cars monthly in conjunction with special exhibits and scheduled car clubs.

ABOUT THE UNDERGROUND

The Underground is our facility dedicated to preserving Kansas City automotive history. It is also Kansas City's largest subterranean storage facility exclusively for cars and motorcycles. Historic driving tours and guided educational tours of The Underground are offered monthly and the facility is available for car shows and public and private events.
