

Kansas City AUTOMOTIVE MUSEUM

LEGACY IN MOTION

The Kansas City Automotive Museum is embarking on a groundbreaking journey, and we want you to join us! In 2025, we'll launch our Legacy in Motion Capital Campaign, a bold vision to create a revolutionary 40,000-square-foot landmark in the heart of Kansas City.

This isn't just about building a museum—it's about uniting generations through the power of the automobile. Our new space will celebrate innovation, preserve Kansas City's rich car culture, and connect our past with future possibilities. It's a tribute to the legacy that shaped our city and a showcase of its vibrant future.

With KC pride at the forefront, we'll share stories of our automotive heritage through world-class, educational exhibits that spark passion and creativity for generations to come.

Stay tuned for ways to get involved when the campaign officially kicks off in 2025. Let's drive this vision forward—together!
